Lesson 41: Percents - Find the Percent of a Number

**Purpose of lesson:** You will learn how to find the percent of a number.

To find the percent of a number you need to do the following:
1. **Change the percent (%) to a decimal.**
2. **Multiply the decimal by the other number.**

This is how it works:

a) 25% of 50 =

\[ \frac{.25}{50} \times 50 = 12.5 \]

b) 5% of 30 =

\[ \frac{.05}{30} \times 30 = 1.5 \]
